Turning ideas into reality

Proposal for workshop

About-us

StuCorner technology is an information technology company, providing customized software and internet solutions. **StuCorner** technology is a team of dedicated and highly skilled software professionals focused on providing **world class IT solutions**. We offer a variety of services in the area of **Software and Web development.**

" *StuCorner* technology *has been founded with a* **StuCorner** **-tech** *to offer its quality of Web and Application Development services and has a mission to become best service provider in the country in the years to come.*"

our next vision

 One years ago, we had a thought- to create a benchmark IT institute for the country and the world. Today as Asia, and in particular India Information technology supremacy, we at the *StuCorner* **-tech** are proud to contribute our part as the architects of creating IT Professionals for the world.

What began as an idea is now an acknowledged institution for quality learning. This is an outcome of the various facets that give the *StuCorner* **-tech** its characteristic value the faculty, enterprising students, academic affiliations, facilities and industry partnerships.

While the world accepts the *StuCorner* **-tech** status we silently reinforce our commitment of being the cornerstone for research-oriented learning. Combine that with a strong focus on becoming one of the world`s top ranked IT Institute, and we`ve defined our role and our challenge for the years ahead. We also give's jobs assistance to our candidate's.

I invite you to associate with us in our effort to sustain knowledge and wisdom for the world.

Why Us?

- We offer one of the most cost effective and affordable price structures in the world of web solutions. We like to lead the industry, and that is why we strive to bring in new and unique ideas for cost competitive custom software programming services. At *StuCorner* technology , we work to build relationship with our clients and provide mature and quality driven software delivery process.

- Right from conceptualization to website designing, search engine optimization and final testing, we look into all aspect of website development. We have skilled team of designers and developers, who have a great deal of experience in projects of varied complexity and scope. They help us deliver high quality web designing services, application development services, multimedia solutions and Search engine optimization

- You can bank on us completely with our timely and cost effective delivery services. We always strive to aim for ultimate customer satisfaction through a mix of high responsiveness and adoption of latest technology.

- While the world accepts the *StuCorner* **-tech** status we silently reinforce our commitment of being the cornerstone for research-oriented learning. Placed them in IT corporate sector's

Our mission

To Become One Stop IT Solution provider in web domain with the commitment to deliver End-to-End, Creative, Quality Solutions at Cost Effective Terms to our esteemed customers.

Our facility

☙

❧ The best teacher is the one who teaches their students with their own experience rather than from a book. The faculty of our institute works on their best level in providing quality education and knowledge to our students, maintaining the policy of ADMEC. Every faculty member understands his/her personal responsibility to deliver the best possible education to the students. Our instructors are always ready to help their students not only in class rooms but also after completion of the courses when they start working in companies. We offer unbelievable quality of infrastructure to our learners and you will be amazed to see our work stations and high-techh labs equipped with many modern devices to prepare the students for the Indian and abroad industries. We provide you with most high end system like Apple iMac desktops to the most advanced software's like Final Cut Pro. All the computer systems have advanced software versions. We also have a facility of comprehensive library for our students to study, with a ample collection of study materials.

Our Placement Partners

StuCorner techhnology has placed more than 100 candidates in many renowned companies as AAJ Tak, HCL, Times Of India, Hindustan Times, Accenture's, Mediates, Aptara, Thomson, Sapient, Ibibo, JIMS, and MAll etc and after the completion of the students course ADMEC assist them in job placement. We place right person at the right job.

Our Methodology

- Our teaching methodology is very different and unique because of two main reasons. First, the programs we deliver are explicitly designed to help students in mastering the broad range of skills that is essential to become a creative industry professional. Secondly, we have a dedicated team of Teachers who all are industry practitioners there by creating a teaching environment that is dynamic. We are continually working to improve our resources to help you with your studies.

- Maximize the rewards of our diversity and delivery capabilities by providing **end to end solutions**, which are easy to maintain and upgrade. **Modular Programming approach** to provide innovative and easily manageable solutions, enabling customers all over the world to benefit from our services.

OUR TEAM

ↈ We have a committed team of **professionals with experience** in variety of tools and platforms. Our developers keep themselves updated with the latest technology trends. Our skilled people share a **common vision of growth**. We do what we believe in, and we believe in what we do.

ↈ *StuCorner* techhnology is headed by a young, enthusiastic, **professionals with a strong technical background**. He possesses **extensive experience in IT industry** and has successfully implemented many large scale projects across various countries including **India, United States, and UK**. His technical insights combined with excellent managerial skills ensure a continuous growth for the company following a unique business model.
